1. If you have a Kindle Paperwhite, you must begin on a computer. Go to the Oceanside Library website: www.oceansidelibrary.com.

2. Click on the Nassau Digital Doorway icon for the Overdrive portal on our homepage. This is where you will search for or browse and check out Kindle eBooks.

3. Click "Sign In" on the top right. Choose "Oceanside Library" from the drop-down menu, enter your library card number where it says "Card Number," then click "Sign In."

4. Refine your search to Kindle compatible eBooks by clicking "Kindle Books" on the top left. Browse or search the collection to find a book.

5. When you find a title, click "Borrow" beneath the book cover. If the title is currently unavailable, you can choose "Place a Hold" to add the item to your hold list.

6. A small screen will pop up. Click on "Read now with Kindle."

7. You will be taken to the Amazon.com page. Sign into your Amazon account on this page.

8. On the right side of the screen, make sure the correct Kindle device is listed where it says "Deliver To," then click "Get Library Book."

9. Once you have downloaded the eBook it should appear on your homepage in Books. If the book does not appear after a minute or two, press the settings icon, then press the "sync" button. The title should now appear.

All eBooks will be returned automatically when the loan period expires. You can extend your loan in the app only if there is no waitlist for the item.

Note: If your Kindle is not WiFi capable or you do not have access to a WiFi connection, read Amazon's instructions and watch the video about how to transfer files via USB by going to: http://tinyurl.com/3hsnh52
